

REMARKS

The foregoing amendment is supplemental to the claim amendment in the previous response filed on March 19, 2007 and the previous supplemental amendment of May 2, 2007, and simply makes an additional amendment in independent claims 18 and 36. The amendment to claim 18 takes out the term “user support pivot axis” , and in view of this some further amendment has been made in dependent claims 19 to 21 for consistency with amended claim 18. Claim 18 is also amended to change the phrase “upright” to “angled member”. Claim 36 has been amended to take out some unnecessary language.

Amended claims 18 and 36 are distinguished from Yu for the same reasons to those stated in the response of March 19, 2007. Referring to claim 18, the exercise frame in Yu does not have a base member and an angled member extending generally upwardly at an angle to the base member which is fixed and not movable relative to the base member.

All other claims are unchanged and the remarks in the response of March 19, 2007 apply equally to the claims after this amendment, and reference is made to that response for arguments regarding the rejections in the Office Action of December 21, 2006. After this additional amendment to claims 18 to 21 and 36, and the previous amendments of March 19, 2007 and May 2, 2007, claims 1 to 60 are pending, with claims 1, 18, 36, 37, 50, and 51 being the independent claims. Applicant respectfully requests entry of this amendment and allowance of the remaining claims for the reasons stated in the reply to the Office Action dated March 19, 2007.

CONCLUSION

It is believed that all claims remaining in this application, specifically claims 1 to 60, are in condition in all respects for allowance, and early notice to this effect is earnestly solicited. If the Examiner has any questions or comments regarding the above Amendments and Remarks or believes that a telephone conversation may be useful in advancing prosecution, the Examiner is invited to contact the undersigned at the number listed below.
